

# Console Release Notes

Build: February 20, 2023

The following enhancements will be implemented in the February Mobile Sales Tool – Console Release.

## Console Enhancements

### Share as Text Message Consent Checkbox

The “Share as a Text Message” modal will now display “Accept” and “Decline” consent checkboxes. These will serve as verification of the customer’s acceptance or refusal to receive text communications from the dealership for this single transaction. Please note – the send button will not work if the customer has selected “Decline.” The modal will also feature an updated legal disclaimer to match the new checkboxes.
