

# MST-C Release Notes

Build: August 7, 2023

The following improvements have been slated for the August 7, 2023, MST-C release.

## MST-C Changes

### DIO Packages

An enhancement has been made that will allow for dealer installed packages to be identified within MST-C. A dealer installed package will now show with a 'Package' Label.

### InfoDriver enhancements

Two enhancements have been added to streamline the InfoDriver experience:

- 1) Addition of View Less button – when adding Vehicle Features, the user now has the option to click 'View Less' once viewing all of the available features. This will allow for the customer to continue the trade-in process without scrolling.

The screenshot shows the Kelley Blue Book Trade-In Value interface. On the left, there is a long list of vehicle features with checkboxes. A red box highlights a 'View Less' link at the bottom of this list. On the right, the main content area is titled 'Kelley Blue Book Trade-In Value' and includes a sub-section 'Vehicle Features' with a grid of options. A 'Back' button is highlighted with a red border, and a 'Next: Vehicle Conditions' button is visible to its right.

2) Addition of back button -- A back button has been added to the InfoDriver experience, which will allow for the customer to make changes to their trade-in without starting the process over.

This is a close-up of the Kelley Blue Book Trade-In Value interface. It shows the 'Vehicle Features' section with a grid of options. The 'Back' button is highlighted with a red box, and the 'Next: Vehicle Conditions' button is visible to its right.
