

Payment Engine Release Notes

Build: November 6th Release

The following Payment Engine improvements have been deployed to production for the November 6th Release.

TCUV Silver

TCUV Silver

Description:

UVI will be sending certificationType value in UVI response. The possible values are "GOLD", "SILVER" and "Null". Payment Engine made code changes to accommodate this certification type and will return corresponding rates from OATs and apply into calculation. Pilot data will start showing for Gold and Silver rates from Nov 8th and Nov 15th.

1. **SaleClass: Certified**
 - Certification level SILVER --> Get *Used* vehicle offer data
 - Certification level NOT SILVER (GOLD OR NULL) --> Get *Certified* vehicle offer data
- **SaleClass: Used**
 - Get *Used* vehicle offer data

Payment Grid Minor fixes

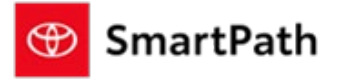

Payment Grid

Description:

Payment Grid Configurator is a feature within Payment Engine F&I admin that would allow dealer admins to configure default setting for lease mileage, downpayment, standard or special rate as default and default order of Offer Type for Global, MST only and MSTC only. It also combined the original default featured terms within this module. It allows dealers to configure for New, Certified and Used as well as Finance and Lease offers respectively. In this release, we fixed some minor issues that shows lease options with used.

- Global section - suppress lease & mileage options for Used vehicles.

Key Replacement Mutual Exclusivity

Key Replacement Mutual Exclusivity

Description:

TFS will roll out Key Replacement as a new protection product on Nov 24th, this feature will allow dealers to only enable one of the two between Key Replacement PP and TW coverage plans with Key Replacement enabled so only one KR will be selected. If one is turned on, dealer admin will get notifications that they can't enable the other one.
